MESSAGE FROM THE PRESIDENT

The end of July is in sight and the Mets, Micros & Minis Regional Meet is less than a month away. The planning and preparations for the MMM Regional Meet are going well. This has not been a good year for car shows, picnics, meets and cruise nights with all the weather issues. I know of one promoter who has been rained out at least 14 times so far this year. Marge and I have had our cars out only once so far - that's way less than normal for us. Hopefully, the weather will cooperate for the rest of the year. There are three upcoming events for the month of August. The first is the Vintage Transport Extravaganza at the Illinois Railway Museum in Union, Illinois on August 1st. On August 19-22 is the Mets, Micros Minis Regional Meet in Crystal Lake, Illinois. Last but not least, is the Orphan show at the Kendall County Fairgrounds. In September, we have the Sandwich Fair Auto Show and the Greenlee End of Summer Picnic at our house. I hope to see as many of you as possible at these events. I have

been informed that there are several members who still have not paid their dues yet. They are due in January of each year, so please try to get them in as soon as you can. Thanks!!

IT'S A BOAT, IT'S A CAR – IT'S AN AMPHI-CAR

I attended the Survivor Show at Bloomington Gold on June 27, 2010. There were no Met's there this year. But there was a car there that spectators usually assume the Met is. Yes, the car that WILL float – the Amphi-Car.

It was odd that the owner kept wiping it off since it is an amphibious automobile. Here is a little background on the Amphi-Car from Wikipedia.

The Amphicar is an amphibious automobile, the first such vehicle mass-produced for sale to the public starting in 1961. The German vehicle was designed by Hanns Trippel and manufactured by the Quandt Group at Lübeck and at Berlin-Borsigwalde. Its name is a portmanteau of "amphibious" and "car". The Amphicar was designed to be marketed and sold in the USA. Compared to most boats or cars, its performance was modest, and only 4000 were produced by 1965. Nevertheless, it is still among the most successful amphibious civilian autos of all time, and still often prized and preserved as novelty collectible automobiles today.

There was a beautiful Amphi-Car on display at the Survivor Show. I did not get to speak to the owner. However, I do have pictures to post below.

As you can see, there are some similarities between the Met and the Amphi-Car. However, the Met will only go in the water once.

Above is a picture of Gary Bosselman and two other Survivor Show judges at Bloomington Gold.

JUNE PLANNING MEETING FOR METS, MICROS & MINIS REGIONAL MEET

We had a look at the spaces for the Regional Meet. We met at Culvers in Crystal Lake and had lunch. Then we went to the site of the Micro/Mini Car World Meet (which we will be holding our Regional Meet at). Then we went to the Hampton Inn in McHenry to check out the host hotel and have a brief meeting of duties and general concerns. Everyone is looking forward to this as a profitable fund raiser but also to get together and enjoy our Mets.

Don't forget to mark your calendars....

MESSAGE FROM THE EDITOR

Summer has been a challenge with the rain and the extreme heat. I was able to get the Met out a couple of times but not as much as I would like. The Regional Meet should be a lot of fun!
